NSW floods support update: period of emergency declared in Edward River in Riverina

We've declared a period of emergency for services in Edward River Council, in the Riverina, New South Wales.

The period of emergency applies from 21 to 29 November.

This follows other emergency extensions and declarations [announced yesterday](#).

[See a full list of emergency declarations on our website](#).

Meantime, the period of emergency will end tonight in most other previously affected areas of NSW.

We continue to monitor the situation and will provide updates here as required.

Sector-specific support

The following support is available for services and families in affected regions **during** the period of emergency:

- services can continue to get Child Care Subsidy (CCS) if they close as a direct result of the emergency
- services can waive gap fees if a child doesn't attend, or their service is closed, during the emergency
- children will get unlimited allowable absences for the duration of the period of emergency.

The following support is available to help services and families recover **after** an emergency:

- Families may be able to access additional absences, if they've exhausted their allowable absences, after the emergency.
- The [Community Child Care Fund \(CCCF\) special circumstances grant](#) helps services stay open when something unexpected happens, such as an emergency. Affected

services should apply after an event has occurred and they have accessed other disaster support.

- Families experiencing temporary financial hardship due to an emergency that happened in the last 6 months may be eligible for [Additional Child Care Subsidy](#). Families should apply through their [Centrelink online account](#).
