

Organisational Risk Management

How to capture risk as a support to your organisation

Training Package Outline

In early childhood education and care services we are very familiar with conducting risk assessments for children's health and safety. But what about assessing risk to the organisation? This training is designed for approved providers and organisational leaders. The package consists of a 1.5-hour presentation as well as a 1.5-hour workshop session that is customised to your service, with time allocated to investigate and document some of your service's key risks and identify controls using a tailored template. The template will be provided to you after the session as a resource for your continued use and further development.

Develop an Organisational Risk Management Framework for your service.

This training is tailored to your service with time allocated to investigate and document some of your service's key risks and identify controls using a tailored template. The template will be provided to you after the session as a resource for your continued use and further development.

Key learnings

At the end of this training session, you will

- Understand risk management
- Identify the key areas of risk and the top risks for your organisation
- Recognise why you should plan for risk management
- Understand what an effective risk management plan is
- Evaluate risk management controls
- Have greater confidence in establishing a culture of risk management in your organisation including policy development for a risk framework
- Have a risk management framework for your service

Delivery Mode Options

- Virtual: 2 x 1.5hr virtual sessions
- Face to face
